

SoftSwipe®

Introducing the Turf-Mounted spike cleaner from SoftSwipe!

CLOGGED SPIKES

**SWIPE SPIKES ACROSS THE
SOFTSWIPE® CLEANER**

TRACTION RESTORED

Simply push into turf, and swipe your spikes to remove debris. Restore traction!
Great for cleaning boots while hunting, or work boots while on the job!

The 7" diameter disk is the first and only cleaner designed specifically for non-metal spikes.

Durable long-lasting rubber rods are more effective for cleaning non-metal spikes than the old steel-bristled brushes.

Aluminum cleats on bottom of cleaner keep the disk stationary when in the turf. Acts as permanent cleaner, but can easily be removed from the turf for mowing.

Enhances traction and safety for all golfers. Also reduces injury liability!

No other cleaner is more accessible and effective.
